

“Back to the 60’s”

VINTAGE LUMINAIRE

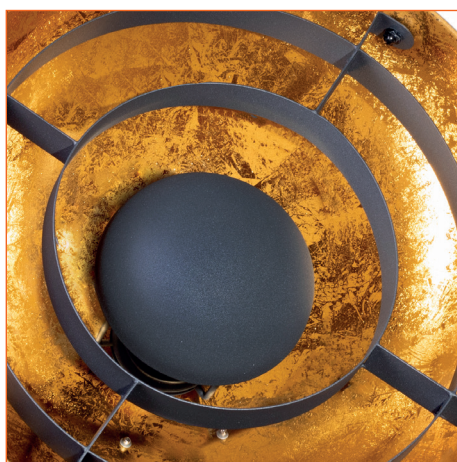

MKII 60W POWERCON TRUE1

An Admiral Staging fixture with a vintage look—because retro chic is absolutely en vogue!

You can use these decoration fixtures for your TV shows, theatre productions or for live bands to create a specific atmosphere. These lights are for decorative purposes and as such they are not meant to provide light.

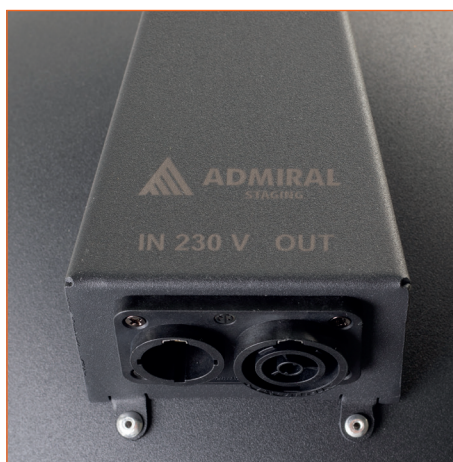

TECHNICAL SOLUTIONS

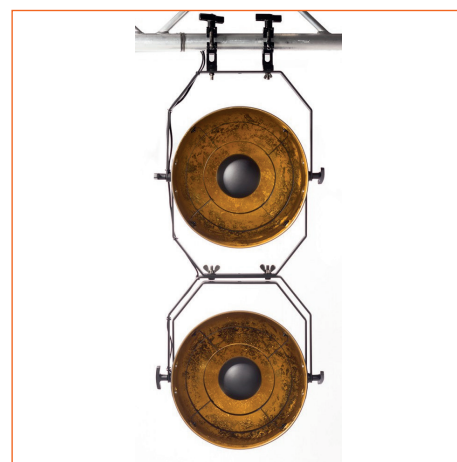

Reflective Shell

The fixture has a golden reflector finish and two concentric black metal rings to provide that vintage spotlight look.

PowerCON TRUE1

The PowerCON Vintage fixture has a built in PowerCON connector that is UV-resistant and conforms to IP65, and also comes with a separate PowerCON counterpart.

Interlinkable

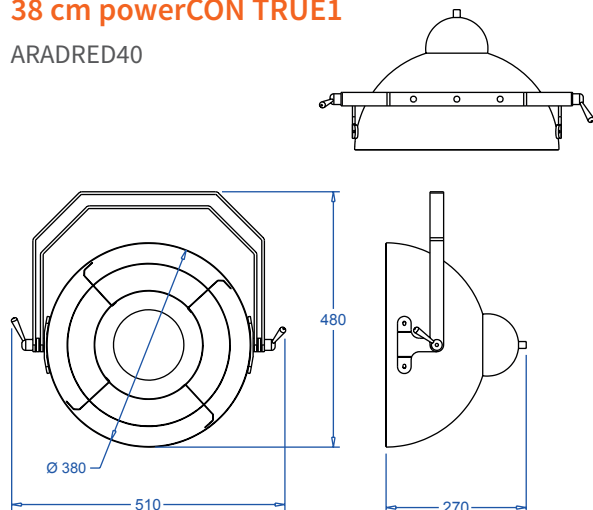

Assemble two brackets to place it on the floor. Even interlinking several luminaires can be done with the two bracket option. How cool is that ?

To make you smile on stage.
