FX-610

SHS
GLOBAL

First and foremost the LightSky FX-610 is a perfect RGBW beam-light, generating a full spectrum of color and featuring an impressive, wide 6° to 51° beam aperture. In addition, the FX-610 introduces new industry features that turn it into a stunning unique effect light: the front lens can be rotated in either direction and at variable speed, combined with full zoom and strobe functions that create many intense beams that can be unfolded or closed like a star burst!
