PROJECTS

SERIES
D
RAGON
INDOOR AND OUTDOOR RENTAL APPLICATION

- High contrast ratio
- Curve function
- High-precision
- Easy installation
- Fast maintenance

SERIES DRAGON

INDOOR AND OUTDOOR RENTAL APPLICATION

DC SERIES

Small Arc Corner LED Display for Outdoor.

CORE ADVANTAGES

INSTALLATION FEATURE

- Automatic lock for single person quick operation, upgraded curved lock for more convenient installation.

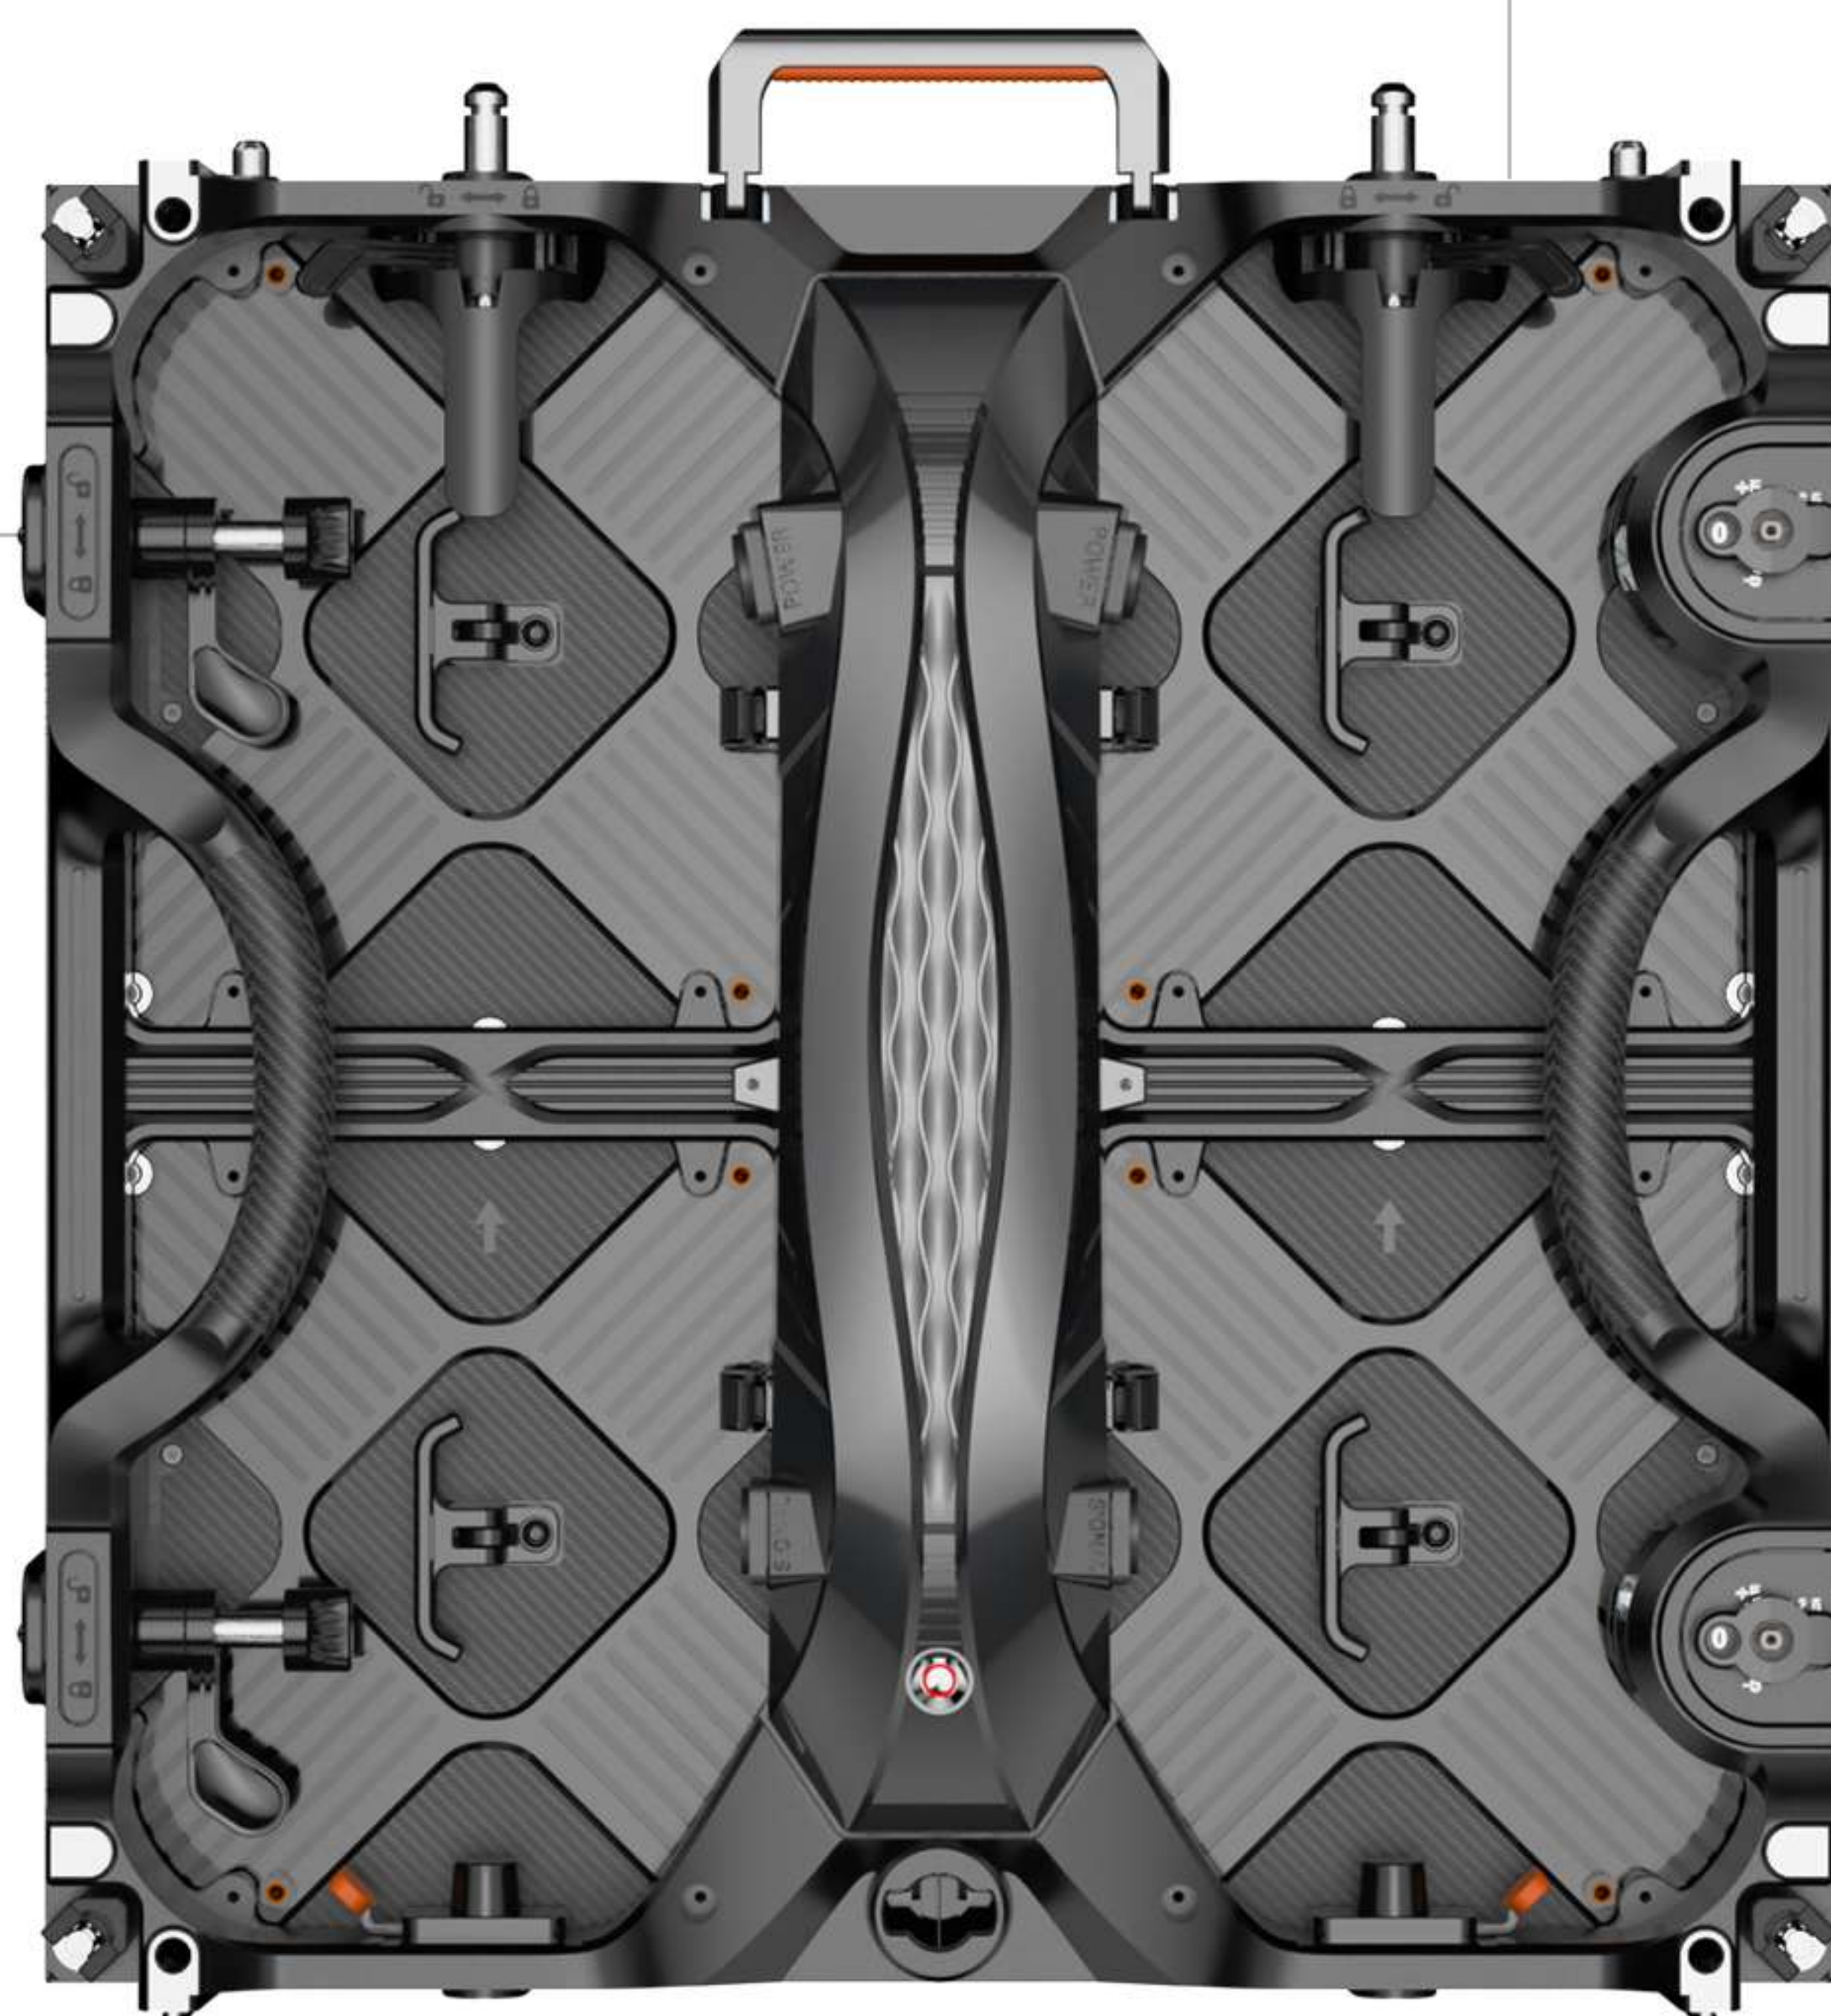

FASTER

- Universal module, no need to distinguish left/right or up/down modules.
- 3 in 1 power box: Hub card, receiving card, and power supply are integrated in one unit box.

STRONGER

- Special protector at 4 corners.
- Bottom heal design: Keep the cabinet not directly touch the ground.
- Anti-collision series: Customized led can enhance the anti-collision ability while ensuring the display effect of the screen.

CREATIVE

- The cabinet can be installed in convex and concave screens.
-5°, -2.5°, 0°, 2.5°, 5°
- 90° corner.

DOLLY SYSTEM

The Dragon series outdoor display screen with dimensions of 500x1000mm, when paired with a dolly and a wind resistance rack, can achieve a quick construction effect.

HIGH CONTRAST RATIO

Regular panel

Dragon panel

MULTIPLE INSTALLATION SOLUTION

Upgrade curve

Upgrade corner

Upgraded curve & 90° corner provide high rigidity and precision for convex and concave screens.

Support hanging

Floor installtion with steel structure
